Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

If tools provide different answers without sources, use verification of the actual document as a benchmark.

When a plan meets an obstacle

Prepare the same anonymised tasks, quality criteria and total cost for both tools.

Save the model version, settings, inputs, time and the score of each output.

Working example · A comparison of two AI providers in your own work

Evaluate whether the results are reproducible for exceptions and the Croatian language.

Specific next steps

1. Prepare the same anonymised tasks, quality criteria and total cost for both tools.
2. Save the model version, settings, inputs, time and the score of each output.
3. Make your decision based on quality, privacy, price, export and support.

Limits of application

For the EDIH services available at the local centre and programme.
