Deciding whether to automate the entire process · How to check this using an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Compare full automation with a simple draft that a person approves.

Checking by example

Draw up the sub-tasks and indicate which are routine and which require an assessment.

Save the decisions on who approves and whether the result can be rolled back.

Working example · Decision on whether to automate the entire process

Retain decisions about who approves and whether the result can be rolled back. If an error has significant consequences, keep manual approval and a fallback available.

Specific next steps

1. Draw up the sub-tasks and indicate which are routine and which require an assessment.
2. Save the decisions on who approves and whether the result can be rolled back.
3. If an error has significant consequences, retain manual verification and a fallback option.

Limits of application

For the EDIH services available at the local centre and programme.
