Proof of time savings after introducing AI · What if the process gets stuck?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

If the samples are not from the same type of work, repeat the measurement under the same conditions.

When a plan meets an obstacle

Record the duration of the manual task from receipt to final result.

Measure separately the preparation of the input, the tool's operation, the corrections and the final approval.

Working example · Proof of time savings after the introduction of AI

Compare the median with the slowest few cases, not just the best examples.

Specific next steps

1. Record the duration of the manual task from receipt to final result.
2. Measure separately the preparation of the input, the tool's operation, the corrections and the final approval.
3. Calculate the savings after licence fees and additional verification costs.

Limits of application

For the EDIH services available at the local centre and programme.
