Testing a process with fictitious business documents · How to verify this with an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Test incomplete entries, illegible items, different currencies and nonsensical attachments.

Checking by example

Create a few fictitious but realistic templates without the data of real people.

Indicate the expected outcome for each case and the test coverage.

Working example · Testing the process with fictitious business documents

Mark the expected outcome for each case and the test coverage. If the made-up examples do not cover real exceptions, expand them without copying people's identities.

Specific next steps

1. Create a few fictitious but realistic templates without the data of real people.
2. Indicate the expected outcome for each case and the test coverage.
3. If the hypothetical examples do not cover actual exceptions, expand them without copying people's identities.

Limits of application

For the EDIH services available at the local centre and programme.
