Choosing the right property for two apartments · How to integrate the process into routine operations?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Tag all keys and fix the object mapping during internal handover.

Regular application

Use the same unique object identifiers across all channels in your own calendar.

In the selected sample, compare the address and accommodation label between the systems.

Working example · Choosing the right property for two flats

In the selected sample, compare the address and accommodation label between the systems.

Specific next steps

1. Use the same unique object identifiers across all channels in your own calendar.
2. In the selected sample, compare the address and accommodation label between the systems.
3. Do not cover up a wrongly entered item by submitting it twice. Check the correction procedure.

Limits of application

To work in the eVisitor system in accordance with the current instructions.
