Choosing the right property with two flats · What to do when the process hits a snag?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Do not cover up a wrongly entered item by submitting it twice. Check the correction procedure.

When a plan meets an obstacle

Before checking in, please check which apartment has actually been allocated to your reservation.

Use the same unique object identifiers across all channels in your own calendar.

Working example · Choosing the right property for two flats

In the selected sample, compare the address and accommodation label between the systems.

Specific next steps

1. Before checking in, please check which apartment has actually been allocated to your reservation.
2. Use the same unique object identifiers across all channels in your own calendar.
3. Tag all keys and fix the object mapping during internal handover.

Limits of application

To work in the eVisitor system in accordance with the current instructions.
