Specific next steps

1. Distinguish between a call for a sole trader, a call for a consortium and a call for an intermediary body.
2. In the official instructions, check the legal form, size, activity, location and employment conditions.
3. Check when costs can be incurred and how much of your own funds you need.

Limits of application

A programme in the announcement does not have the same status as an open call. Eligibility and allocation are determined in accordance with the documentation of the specific call.
