What should you check when sending goods within the EU or exporting them outside it?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o. · Platformski rad preko vlastitog obrta

Verified by an official source · Reviewed: 2026-11-19

Applicability: Before agreeing on the price, dispatch and terms of delivery

Within the EU's customs territory for Union goods, there are generally no import duties between Member States. For trade with third countries, check the customs declaration, tariff classification, origin and obligations in the destination country via Access2Markets.

Specific next steps

1. Determine the status and origin of the goods, the destination, and who bears the costs and responsibility.

2. Within the EU, check the VAT and transport documentation.

3. For a third country, check the classification of the goods, customs procedures, the requirement for an EORI number and any special product requirements.

Limits of application

Excise goods, special zones and consignments under special regimes require additional verification.
