Platform registration number after enrolment in JEER · How to integrate the procedure into routine operations?

For: Platformski radnik kod poslodavca · Platformski rad preko vlastitog obrta

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Save the date and the verification result before commencing the collaboration.

Regular application

Before verification, collect the entity's official name and the identifier available to you.

Check who the number refers to. The platform and its intermediary are not the same entity.

Working example · Platform registration number after enrolment in JEER

The application and the contract display different trade names. The courier requests the official name and registration details for the entity with which it intends to work.

Specific next steps

1. Before verification, collect the entity's official name and the identifier available to you.
2. Check who the number refers to. The platform and its intermediary are not the same entity.
3. If the number cannot be linked to the contract name, ask the contracting party.

Limits of application

For the registration of platforms and aggregators in the JEER system.
