e-Invoice Compliance with the EU Standard · How to Implement the Procedure into Routine Operations?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Record which version of the standard and technical specifications applies to your system.

Regular application

Request the structured output layout and the current specification from the system supplier.

Send the test file through the designated channel and check whether it can be loaded.

Working example · eInvoice compliance with the EU standard

The supplier sends the accountant a PDF for review and delivers the structured record via the designated channel. The accountant verifies the import of the structured record. Opening the PDF merely confirms that the image is legible.

Specific next steps

1. Request the structured output layout and the current specification from the system supplier.
2. Send the test file through the designated channel and check whether it can be loaded.
3. Treat the readable PDF as an account view. For exchange, check the structured document.

Limits of application

By account type, status and dates of application of the Law.
