Verification of work calculations for evening and night shifts · How to proceed?

For: Platform worker employed by a company

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Allocate hours that span a calendar day or a pay period.

A starting point in practice

Keep track of the rota, records of hours worked and items for payroll processing.

Compare the agreed classification of hours and the displayed allowances by applicable source.

Working example · Verification of the calculation of work in evening and night shifts

Compare the agreed classification of hours and the displayed allowances by applicable source.

Specific next steps

1. Keep track of the rota, records of hours worked and items for payroll processing.
2. Compare the agreed classification of hours and the displayed allowances by applicable source.
3. Give the accounting department an example where you expect a different calculation.

Limits of application

For a Croatian employment relationship, in accordance with applicable regulations and the contract.
