Who is registered with JEER when I download work via an aggregator?

For: Platformski radnik kod poslodavca · Platformski rad preko vlastitog obrta

Verified by an official source · Reviewed: 2026-11-22

Applicability: For registered digital working platforms and aggregators in Croatia.

The Ministry of Labour describes the registration and digital work platforms and aggregators. For your relationship, check separately who your contracting party is and on what basis and under what conditions you are working.

When this is applied

Request the aggregator's full name, OIB number and number, or official confirmation of registration, in accordance with the applicable procedure. Compare these details with the contract, the invoice and the information in the application.

What to do in practice

In the official query, describe the platform, the aggregator, the contract and the type of question.

A business example

The application displays the platform's market name, and the settlement is issued by a different entity. The deliverer first establishes the identity of both parties and who is to be held responsible for the settlement.

Specific next steps

1. In the official query, describe the platform, the aggregator, the contract and the type of question.

Limits of application

For registered digital working platforms and aggregators in Croatia.
