AI literacy of business AI users · How to integrate the procedure into routine operations?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Update the training plan whenever a tool with a different purpose or level of risk is introduced.

Regular application

Record which roles and systems are covered, the training method, and examples.

Test whether the team differs on the data that may be entered and the outputs that should be checked.

Working example · AI literacy for people using business AI

The team uses AI to draft proposals. At the workshop, they check whether employees can recognise a fictitious price and personal data that must not be uploaded to the tool. They record the training and its specific purpose.

Specific next steps

1. Record which roles and systems are covered, the training method, and examples.
2. Test whether the team differs on the data that may be entered and the outputs that should be checked.
3. If generic training does not cover the actual job, add practice in approved scenarios.

Limits of application

For roles covered by Article 4 of the Artificial Intelligence Act.
