Adding keywords to a large directory · How to check it using an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

On the sample, test whether the tool recognises material variants and linguistic synonyms.

Checking by example

Specify the permitted categories and look for an exit in the pre-defined structure.

Keep the item's original label, the new label and the processing date.

Working example · Adding keywords to a large catalogue

Keep the item's original reference, the new reference and the processing date. If categories from outside the code list are recommended, separate those rows before importing.

Specific next steps

1. Specify the permitted categories and look for an exit in the pre-defined structure.
2. Keep the item's original label, the new label and the processing date.
3. If categories from outside the code list are recommended, separate those rows before importing.

Limits of application

Apply the guideline to your documents and working methods.
