Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Measure separately the preparation of the input, the tool's operation, the corrections and the final approval.

Record and working document

Compare the median with the slowest few cases, not just the best examples.

If the samples are not from the same type of work, repeat the measurement under the same conditions.

Working example · Proof of time savings after the introduction of AI

Compare the median with the slowest few cases, not just the best examples.

Specific next steps

1. Compare the median with the slowest few cases, not just the best examples.
2. If the samples are not from the same type of work, repeat the measurement under the same conditions.
3. Calculate the savings after licence fees and additional verification costs.

Limits of application
