Proof of time savings after introducing AI · How to approach it?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Record the duration of the manual task from receipt to final result.

A starting point in practice

Measure separately the preparation of the input, the tool's operation, the corrections and the final approval.

Compare the median with the slowest few cases, not just the best examples.

Working example · Proof of time savings after the introduction of AI

Compare the median with the slowest few cases, not just the best examples.

Specific next steps

1. Measure separately the preparation of the input, the tool's operation, the corrections and the final approval.
2. Compare the median with the slowest few cases, not just the best examples.
3. Calculate the savings after licence fees and additional verification costs.

Limits of application

For the EDIH services available at the local centre and programme.
