Proof of time savings after introducing AI · How to verify this with an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Compare the median with the slowest few cases, not just the best examples.

Checking by example

Record the duration of the manual task from receipt to final result.

Measure separately the preparation of the input, the tool's operation, the corrections and the final approval.

Working example · Proof of time savings after the introduction of AI

Measure separately the input preparation, tooling, corrections and final approval. If the samples are not from the same type of job, repeat the measurement under the same conditions.

Specific next steps

1. Record the duration of the manual task from receipt to final result.
2. Measure separately the preparation of the input, the tool's operation, the corrections and the final approval.
3. If the samples are not from the same type of work, repeat the measurement under the same conditions.

Limits of application

For the EDIH services available at the local centre and programme.
