Deciding whether to automate the entire process · How to introduce the process into routine operation?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Only increase the volume after measuring on real-world cases.

Regular application

Save the decisions on who approves and whether the result can be rolled back.

Compare full automation with a simple draft that a person approves.

Working example · Decision on whether to automate the entire process

Compare full automation with a simple draft that a person approves.

Specific next steps

1. Save the decisions on who approves and whether the result can be rolled back.
2. Compare full automation with a simple draft that a person approves.
3. If an error has significant consequences, retain manual verification and a fallback option.

Limits of application

For the EDIH services available at the local centre and programme.
