AI assistance for team schedule planning · How can this be verified with an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Check rest, overlaps and availability in edge cases.

Checking by example

Use the actual availability and restrictions approved by the responsible person.

Record the basic allocation criteria and each manually approved exception.

Working example · AI assistance with team schedule planning

Record the basic allocation criteria and every manually approved exception. If the schedule shows systemic unfair differences, suspend its implementation and review the inputs.

Specific next steps

1. Use the actual availability and restrictions approved by the responsible person.
2. Record the basic allocation criteria and each manually approved exception.
3. If the schedule shows systematic unfair differences, stop applying it and review the inputs.

Limits of application

Apply the guideline to your documents and working methods.
