Testing a process with fictitious business documents · How to approach it?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Create a few fictitious but realistic templates without the data of real people.

A starting point in practice

Indicate the expected outcome for each case and the test coverage.

Test incomplete entries, illegible items, different currencies and nonsensical attachments.

Working example · Testing the process with fictitious business documents

Test incomplete entries, illegible items, different currencies and nonsensical attachments.

Specific next steps

1. Indicate the expected outcome for each case and the test coverage.
2. Test incomplete entries, illegible items, different currencies and nonsensical attachments.
3. Repeat the test after every major change to the rules or tools.

Limits of application

For the EDIH services available at the local centre and programme.
