Cost of AI processing per useful result · How to introduce the procedure into routine operation?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Set a cost threshold at which the team re-evaluates whether AI is necessary.

Regular application

Track repeated attempts and exceptions that require manual correction.

Compare the cost per fully processed case, separately for light and heavy tasks.

Working example · Cost of AI processing per useful result

Compare the cost per fully processed case, separately for light and heavy tasks.

Specific next steps

1. Track repeated attempts and exceptions that require manual correction.
2. Compare the cost per fully processed case, separately for light and heavy tasks.
3. If the cost is too high, limit the input or transfer the simple task to a more reliable procedure.

Limits of application

For the EDIH services available at the local centre and programme.
