Cost of AI processing per useful result · What happens when the process stalls?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

If the cost is too high, limit the input or transfer the simple task to a more reliable procedure.

When a plan meets an obstacle

In one table, combine licences, consumption, team hours and successfully resolved cases.

Track repeated attempts and exceptions that require manual correction.

Working example · Cost of AI processing per useful result

Compare the cost per fully processed case, separately for light and heavy tasks.

Specific next steps

1. In one table, combine licences, consumption, team hours and successfully resolved cases.
2. Track repeated attempts and exceptions that require manual correction.
3. Set a cost threshold at which the team re-evaluates whether AI is necessary.

Limits of application

For the EDIH services available at the local centre and programme.
