Cost of AI processing per useful result · How to verify this with an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Compare the cost per fully processed case, separately for light and heavy tasks.

Checking by example

In one table, combine licences, consumption, team hours and successfully resolved cases.

Track repeated attempts and exceptions that require manual correction.

Working example · Cost of AI processing per useful result

Monitor repeated attempts and exceptions that require manual correction. If the cost is too high, restrict input or transfer simple tasks to a more reliable procedure.

Specific next steps

1. In one table, combine licences, consumption, team hours and successfully resolved cases.
2. Track repeated attempts and exceptions that require manual correction.
3. If the cost is too high, limit the input or transfer the simple task to a more reliable procedure.

Limits of application

For the EDIH services available at the local centre and programme.
