Automatic data transfer between the online shop and accounting · How to check this with an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Test the double event, return and subsequent order change.

Checking by example

Agree on a unique order identifier and which application is the source of each field.

Record transferred entries, triggers, errors and repeated attempts.

Working example · Automatic data transfer between the webshop and accounting

Record transferred records, triggers, errors and retries. If a record is transferred halfway, repeat only the unsaved step for the identified order.

Specific next steps

1. Agree on a unique order identifier and which application is the source of each field.
2. Record transferred entries, triggers, errors and repeated attempts.
3. If the record has only partially transferred, repeat only the unsaved step for the identified order.

Limits of application

Apply the guideline to your documents and working methods.
