Creating an online form that reduces errors · How to check it using an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Test the form using a keyboard, on a mobile phone and with incorrect input.

Checking by example

Ask only for the necessary information and include an example of a valid entry format.

Record the purpose of each field, the expected format and the data storage location.

Working example · Creating an online form that reduces errors

Record the purpose of each field, the expected format and the data storage location. If the error message does not explain how to resolve the issue, link it to the correct field.

Specific next steps

1. Ask only for the necessary information and include an example of a valid entry format.
2. Record the purpose of each field, the expected format and the data storage location.
3. If the error message does not explain how to resolve the problem, link it to the correct field.

Limits of application

Apply the guideline to your documents and working methods.
