Testing the receipt of the first structured e-Invoice · How to verify it using an example?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Compare amounts, tax items and identifiers when importing into the accounting system.

Checking by example

Arrange a trial account with your partner, specifying a concrete item and known identifiers.

Save the original file, the exchange status and the link to the business obligation.

Working example · Trial receipt of the first structured eInvoice

Save the original file, the exchange status and the link to the business obligation. If only a visual attachment has arrived, check which channel the structured record was sent via.

Specific next steps

1. Arrange a trial account with your partner, specifying a concrete item and known identifiers.
2. Save the original file, the exchange status and the link to the business obligation.
3. If only the visual attachment has arrived, check which channel the structured record was sent on.

Limits of application

For the covered obligors and the appropriate type of account.
