Choosing the right property with two apartments · How to approach it?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Before checking in, please check which apartment has actually been allocated to your reservation.

A starting point in practice

Use the same unique object identifiers across all channels in your own calendar.

In the selected sample, compare the address and accommodation label between the systems.

Working example · Choosing the right property for two flats

In the selected sample, compare the address and accommodation label between the systems.

Specific next steps

1. Use the same unique object identifiers across all channels in your own calendar.
2. In the selected sample, compare the address and accommodation label between the systems.
3. Tag all keys and fix the object mapping during internal handover.

Limits of application

To work in the eVisitor system in accordance with the current instructions.
