Choosing the right property with two apartments · How to check it in practice?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

In the selected sample, compare the address and accommodation label between the systems.

Checking by example

Before checking in, please check which apartment has actually been allocated to your reservation.

Use the same unique object identifiers across all channels in your own calendar.

Working example · Choosing the right property for two flats

In your own calendar, use the same unique object identifiers across all channels. Do not conceal a misentered object by logging it twice. Check the correction procedure.

Specific next steps

1. Before checking in, please check which apartment has actually been allocated to your reservation.
2. Use the same unique object identifiers across all channels in your own calendar.
3. Do not cover up a wrongly entered item by submitting it twice. Check the correction procedure.

Limits of application

To work in the eVisitor system in accordance with the current instructions.
