Testing digital technology before investing · What to note?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Prepare a description of the company, the problem, the objective and the investment framework you wish to review.

Record and working document

Check with the specific centre for the service, availability, terms and what you will receive.

If the chosen centre does not have the required expertise, request a referral to another centre in the network.

Working example · Trialling digital technology before investing

The company is considering automating its incoming mail. Before signing a full-year contract, EDIH asks whether it can test document recognition and manual error checking on a trial sample.

Specific next steps

1. Check with the specific centre for the service, availability, terms and what you will receive.
2. If the chosen centre does not have the required expertise, request a referral to another centre in the network.
3. Transfer the test conclusions into the decision on the cost and the next pilot.

Limits of application

For the EDIH services available at the local centre and programme.
