Insight into the company's publicly published reports · How to access them?

For: limited liability company and limited company

Verified by an official source · Reviewed: 2026-11-22

Applicability: For records available through public inspection in the RGFI.

Fina's public access to RGFI provides access to published financial statements, including the balance sheet and the income statement when they are publicly available.

A starting point in practice

Keep the identity of the reporting entity, the year and the date of retrieval.

Compare at least two relevant periods if the review is part of a partner assessment.

Working example · Insight into the company's publicly available reports

The supplier offers an annual contract. The buyer checks the reports for the most recent available years, records the date of inspection and separately requests information on the supplier's ability to deliver today.

Specific next steps

1. Keep the identity of the reporting entity, the year and the date of retrieval.
2. Compare at least two relevant periods if the review is part of a partner assessment.
3. For a larger contract, also request more up-to-date information on delivery and billing reliability.

Limits of application

For records available through public inspection in the RGFI.
