Is the application for self-employment for 2026 still open? · How to apply?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Verified by an official source · Reviewed: 2026-11-22

Applicability: Invitation only for 2026.

The HZZ states on its measures page that applications for self-employment in 2026 must be submitted by 30 September 2026. That page does not confirm the conditions or deadline for the next cycle.

A starting point in practice

Record the exact year, the name of the measure and the address of the official notice.

Distinguish the request submission deadline from the deadlines after the measure has been booked.

Working example · Is the application for self-employment for 2026 still open?

The candidate is preparing a cost estimate in November. He records the status of the 2026 call as closed, leaving the equipment purchase date, amount and conditions open until the official announcement of the new cycle.

Specific next steps

1. Record the exact year, the name of the measure and the address of the official notice.
2. Distinguish the request submission deadline from the deadlines after the measure has been booked.
3. Prepare a comprehensive business plan that can be adapted to your new calling.

Limits of application

Invitation only for 2026.
