Applicability: According to the profile and circumstances of the described case.

If part of the costs are incurred monthly, allocate them over the estimated working hours.

When a plan meets an obstacle

Divide the income after business expenses by the total time you have invested.

Include waiting, travel to the zone, deliveries and return in the measurable methodology.

Working example · Effective hourly rate after waiting and return

Compare a working day in the centre with a day in the wider area under the same definition of a day.

Specific next steps

1. Divide the income after business expenses by the total time you have invested.
2. Include waiting, travel to the zone, deliveries and return in the measurable methodology.
3. Set the minimum hourly rate for which you change the zone, time or work model.

Limits of application

Apply the guideline to your documents and working methods.
