Verification of the calculation of work in evening and night shifts · How to check this using an example?

For: Platform worker employed by a company

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Compare the agreed classification of hours and the displayed allowances by applicable source.

Checking by example

Allocate hours that span a calendar day or a pay period.

Keep track of the rota, records of hours worked and items for payroll processing.

Working example · Verification of the calculation of work in evening and night shifts

Keep track of the schedule, records of hours worked and items on the timesheet. If an item is missing, specify the dates, the amount and the exact time it was completed.

Specific next steps

1. Allocate hours that span a calendar day or a pay period.
2. Keep track of the rota, records of hours worked and items for payroll processing.
3. If an item is missing, please provide the dates, the amount and the exact time of execution.

Limits of application

For a Croatian employment relationship, in accordance with applicable regulations and the contract.
