A plan for actual delivery breaks during peak traffic · How to approach it?

For: Platform worker employed by a company

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Set a time and place for a safe shutdown without taking on any new tasks.

A starting point in practice

Record the start and end of each interruption and distinguish a pause from a stoppage in the order.

Check whether the actual breaks comply with the shift schedule and employment rights.

Working example · Plan for actual delivery breaks during peak traffic

Check whether the actual breaks comply with the shift schedule and employment rights.

Specific next steps

1. Record the start and end of each interruption and distinguish a pause from a stoppage in the order.
2. Check whether the actual breaks comply with the shift schedule and employment rights.
3. Add a standby slot to your personal plan for high-demand days.

Limits of application

For a Croatian employment relationship, in accordance with applicable regulations and the contract.
