One shift and multiple open applications · How to check this using an example?

For: Platform worker employed by a company

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Simulate a day with orders from various apps and check for overlaps.

Checking by example

In advance, indicate which schedule the time belongs to and when you are available to which employer.

Record overlaps and breaks, without double-counting in your own calculation.

Working example · One shift and multiple open applications

Record overlaps and breaks without double-counting in your own calculation. If there are concurrent availability obligations, clarify the schedule before proceeding.

Specific next steps

1. In advance, indicate which schedule the time belongs to and when you are available to which employer.
2. Record overlaps and breaks, without double-counting in your own calculation.
3. If there are concurrent availability commitments, clarify the schedule before proceeding.

Limits of application

For a Croatian employment relationship, in accordance with applicable regulations and the contract.
