New equipment and instructions for safe operation · What to do when the procedure gets stuck?

For: Paušalni obrt · Obrtnici · j.d.o.o. · d.o.o.

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

If the equipment has changed its mode of operation, check the necessary measures with a specialist.

When a plan meets an obstacle

Before use, check the impact on the risk assessment and the required training.

Keep the instructions, the inspection documentation and a record of who is handling the equipment.

Working example · New equipment and instructions for safe operation

Go through the authorised shutdown procedure and the process in case of a problem.

Specific next steps

1. Before use, check the impact on the risk assessment and the required training.
2. Keep the instructions, the inspection documentation and a record of who is handling the equipment.
3. Arrange a schedule of regular inspections and ensure that instructions are available at the workplace.

Limits of application

For a Croatian employment relationship, in accordance with applicable regulations and the contract.
