Adaptation and layout changes in an existing flat · How to approach it?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Draw the difference between the before and after, including the bearings, the bathroom and the utility rooms.

A starting point in practice

Retain the solution, the approved floor plan and a record of the date the change was implemented.

Check whether the planned new layout matches the data from the existing solution.

Case study · Adaptation and reconfiguration of the layout in an existing flat

Check whether the planned new layout matches the data from the existing solution.

Specific next steps

1. Retain the solution, the approved floor plan and a record of the date the change was implemented.
2. Check whether the planned new layout matches the data from the existing solution.
3. After checking, update the photos, the floor plan and the instructions for guests.

Limits of application

For household activities, by type of establishment, status and location.
