Capacity, auxiliary bearing and ad description · How to access?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Begin with the permitted number of guests and the way capacity is displayed in the solution.

A starting point in practice

Record the capacity from the solution and the values from all sales channels side by side.

Test that the channels do not offer bookings for more people than you are permitted to accommodate.

Working example · Capacity, auxiliary bearing and advertisement description

Test that the channels do not offer bookings for more people than you are permitted to accommodate.

Specific next steps

1. Record the capacity from the solution and the values from all sales channels side by side.
2. Test that the channels do not offer bookings for more people than you are permitted to accommodate.
3. Prepare a unique description of the accommodation, including its size and availability, for all listings.

Limits of application

For household activities, by type of establishment, status and location.
