Capacity, auxiliary bearing and advertisement description · How to introduce the procedure into routine operation?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Prepare a unique description of the accommodation, including its size and availability, for all listings.

Regular application

Record the capacity from the solution and the values from all sales channels side by side.

Test that the channels do not offer bookings for more people than you are permitted to accommodate.

Working example · Capacity, auxiliary bearing and advertisement description

Test that the channels do not offer bookings for more people than you are permitted to accommodate.

Specific next steps

1. Record the capacity from the solution and the values from all sales channels side by side.
2. Test that the channels do not offer bookings for more people than you are permitted to accommodate.
3. For an additional bed, check whether the plan requires an amendment to the conditions or the design.

Limits of application

For household activities, by type of establishment, status and location.
