Capacity, auxiliary bearing and ad description · How to check this using an example?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Test that the channels do not offer bookings for more people than you are permitted to accommodate.

Checking by example

Begin with the permitted number of guests and the way capacity is displayed in the solution.

Record the capacity from the solution and the values from all sales channels side by side.

Working example · Capacity, auxiliary bearing and advertisement description

Record the capacity from the solution alongside the values from all sales channels. For the additional bed, check whether the plan requires amending the conditions or the solution.

Specific next steps

1. Begin with the permitted number of guests and the way capacity is displayed in the solution.
2. Record the capacity from the solution and the values from all sales channels side by side.
3. For an additional bed, check whether the plan requires an amendment to the conditions or the design.

Limits of application

For household activities, by type of establishment, status and location.
