Sending a photo of your ID card via message · How to access?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Check which information is required for the application and whether the process can be arranged without copying the identity card.

A starting point in practice

Record the purpose and scope of the data, the method of entry and the retention period for additional systems.

Check whether copies have also been created outside eVisitora, for example in messages or the gallery.

Working example · Sending a photo of an identity card via a message

Check whether copies have also been created outside eVisitora, for example in messages or the gallery.

Specific next steps

1. Record the purpose and scope of the data, the method of entry and the retention period for additional systems.
2. Check whether copies have also been created outside eVisitora, for example in messages or the gallery.
3. Advance guests to the secure channel and provide the necessary information.

Limits of application

When personal data covered by the GDPR is processed.
