Sending an image of an identity card via message · How to integrate the procedure into routine operations?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Advance guests to the secure channel and provide the necessary information.

Regular application

Record the purpose and scope of the data, the method of entry and the retention period for additional systems.

Check whether copies have also been created outside eVisitora, for example in messages or the gallery.

Working example · Sending a photo of an identity card via a message

Check whether copies have also been created outside eVisitora, for example in messages or the gallery.

Specific next steps

1. Record the purpose and scope of the data, the method of entry and the retention period for additional systems.
2. Check whether copies have also been created outside eVisitora, for example in messages or the gallery.
3. If you have received an unnecessary copy, protect the data and assess the justification for retaining it before sharing it further.

Limits of application

When personal data covered by the GDPR is processed.
