Sending an ID card photo via a message · How to check it using an example?

For: Private accommodation host

Practical business guidance · Reviewed: 2026-11-22

Applicability: According to the profile and circumstances of the described case.

Check whether copies have also been created outside eVisitora, for example in messages or the gallery.

Checking by example

Check which information is required for the application and whether the process can be arranged without copying the identity card.

Record the purpose and scope of the data, the method of entry and the retention period for additional systems.

Working example · Sending a photo of an identity card via a message

Record the purpose and scope of the data, the method of entry and the retention period for additional systems. If you have received an unnecessary copy, protect the data and assess the justification for retaining it before further sharing.

Specific next steps

1. Check which information is required for the application and whether the process can be arranged without copying the identity card.

2. Record the purpose and scope of the data, the method of entry and the retention period for additional systems.

3. If you have received an unnecessary copy, protect the data and assess the justification for retaining it before sharing it further.

Limits of application

When personal data covered by the GDPR is processed.
