Record and working document

Send the test file through the designated channel and check whether it can be loaded.

Treat the readable PDF as an account view. For exchange, check the structured document.

Working example · eInvoice compliance with the EU standard

The supplier sends the accountant a PDF for review and delivers the structured record via the designated channel. The accountant verifies the import of the structured record. Opening the PDF merely confirms that the image is legible.

Specific next steps

1. Send the test file through the designated channel and check whether it can be loaded.
2. Treat the readable PDF as an account view. For exchange, check the structured document.
3. Record which version of the standard and technical specifications applies to your system.

Limits of application

By account type, status and dates of application of the Law.
